

D8.5 - Report on Collaboration - M36

This report corresponds to Deliverable D8.5 - Report on Collaboration - M36 of the ALMA project. This deliverable covers the main collaborations between ALMA consortium members and organizations, EU projects and communities external to the project.

The report provides a comprehensive account of research collaborations during the specified timeframe. It highlights partnerships with various research groups and the ROS community, shedding light on their objectives, activities, and contributions to the field of hybrid intelligence and AI integration with ROS.
